[TeeFLii](#)

Just me and you girl
I will never break your heart
Cos girl you, you been down, you been down from the start
You know where the best at and you know I [?]
Every time you leave me
I know you're coming right back to me, right back to me
Girl you know, you know
Every time that we have sex
I give it, I give it, I give it I give it to you how you want it, you want it
We gon' do it every way you want it
You look sexy wearing that blue lipstick, blue lipstick
You look sexy wearing that blue lipstick
Girl you looking so, looking so damn sexy wearing that blue
Sexy lingerie
You gon' come over when you need that
Girl put it on me, don't play it
Cos I'm gon' put it in the right places
Cos you gon' wind it for me
Then unwind it for me
Cos you do everything that I like
And girl I do everything you like
I'm gon' have you fiending for more
You like it doggy style, don't ya?
Every time that we have sex
I give it, I give it, I give it I give it to you how you want it, you want it
We gon' do it every way you want it
You look sexy wearing that blue lipstick
Blue lipstick, blue lipstick
Girl you looking so, looking so damn sexy wearing that blue
Baby that blue
Baby, I
Yeah Yeah I give it to you how you want it, how you want it
We gon' do it every way, every way you want it
You look sexy wearing that blue lipstick, blue lipstick
You look sexy wearing that blue lipstick
Girl you looking so, looking so damn sexy wearing that blue
