

# Pulse (feat. Bloodboy)

## King Henry

Like a pulse without a heart

Reveal it but don't see it

Trying not to fall apart

Say fuck it, I won't leave it

Like a pulse without a heart

Reveal it but don't see it

Trying not to fall apart

Say fuck it, I won't leave it

Staying up all night

'Cause it still isn't right, right

Giving more than time

But it still isn't right, isn't right

Staying up all night

'Cause it still isn't right, right

Giving more than time

But it still isn't right, isn't right

Staying up all night

'Cause it still isn't right, right

Giving more than time  
But it still isn't right, isn't right

Staying up all night  
'Cause it still isn't right, right

Stayed up all night  
'Cause it still isn't right, right

Like a pulse without a heart  
Reveal it but don't see it  
Trying not to fall apart  
Say fuck it, I won't leave it

Like a pulse without a heart  
Reveal it but don't see it  
Trying not to fall apart  
Say fuck it, I won't leave it

Staying up all night  
'Cause it still isn't right, right  
Giving more than time  
But it still isn't right, isn't right

Staying up all night

'Cause it still isn't right, right

Giving more than time

But it still isn't right, isn't right

Staying up all night

'Cause it still isn't right, right

Giving more than time

But it still isn't right, isn't right

Staying up all night

'Cause it still isn't right, right

Giving more than time

But it still isn't right, isn't right
