

Can't Stay Away

[Kris Allen](#)

I see you, girl, walking over here
Can't look away
I see you left a trail of broken hearts
On your way to me I try to not let it show
But I know that you know, yeah You break me down every time you make a move
Without a sound, girl, you make me come unglued
And I don't know what you did to me
And I don't care what the doctors say 'Cause no matter what you do
I can't stay away from you, oh, oh
I can't stay away from you, oh, oh
There's something about the way you make me feel
I'm ready to confess
They checked my heart and it's terminally ill
Baby, I'm a mess I'm done trying to deny
That without you I'll be alright, yeah You break me down every time you make a move
Without a sound, girl, you make me come unglued
And I don't know what you did to me
And I don't care what the doctors say 'Cause no matter what you do
I can't stay away from you, oh, oh
I can't stay away from you, oh, oh Twenty four hours a day ain't really enough, no way
To get to know you from head to toe
You know how to captivate, please baby, don't make me wait
I'm at your door, I need more, more, more, more, more, oh, ooh
You break me down every time you make a move
Without a sound, girl, you make me come unglued
And I don't know what you did to me
And I don't care what the doctors say 'Cause no matter what you do
I can't stay away from you, oh, oh
I can't stay away from you, oh, oh
I can't stay away from you, oh, oh
I can't stay away from you, oh, oh
