

Bloom

Surfaces

[Verse 1: Forrest]

I was thinking 'bout you and the things that you do
A picture-perfect moment of a?California?view
The color of?your eyes and the Malibu skies
Paint?the walls of my mind

[Pre-Chorus: Forrest]

We were running through the hills
Searching for a couple thrills
Tryna keep it on the real with you
We were floating through the trees
Burning up like third degree
Ain't no place I'd rather be it's true

[Chorus: Forrest]

I could
Spend forever next to you
To you
Watching
And feeling all the colors bloom
Bloom
Oh, I could
Spend forever next to you
To you
Watching
And feeling all the colors bloom
Bloom

[Verse 2: Forrest]

Oh, where you wanna go? So we can be alone
No spaces I could roam without you
You're the place I wanna be everything I'm tryna see
Oh I'm not gonna waste your time

[Pre-Chorus: Forrest]

We were running through the hills
Searching for a couple thrills
Tryna keep it on the real with you
We were floating through the trees
Burning up like third degree
Ain't no place I'd rather be it's true

[Chorus: Forrest]

I could
Spend forever next to you
To you
Watching
And feeling all the colors bloom
Bloom
Oh, I could
Spend forever next to you
To you
Watching
And feeling all the colors bloom
Bloom
