

# Clean This House (feat. R. Kelly)

Isaac Carree

Oh yeah, lord I thank you  
For forgiving me over and over again yeah I'm calling on you heavenly father  
I'm down on my knees  
You said call on you no matter the hour  
Lord I'm in need  
I've been messing up, done lost my house  
Done lost my job, wife walking out?  
These church folk say they my friends  
But I'm all they talk about  
I've been doing wrong, I'm so sorry  
Lord please forgive me We confess to him he'll remove all wickedness  
The blood from your son will wash me from my sins  
Clean this house, from the inside out  
Restore me, take away my impurity  
Lord I need you to  
Clean this house, from the inside out  
Restore me, take away my impurity I said if you got me out that last situation  
I wouldn't do it again  
What can I say but I'm only human and lord here I stand  
I've been smoking a lot, and drinking a lot  
And all up in the club  
I've been doing this, I've been doing that  
And I had no business doing it  
No church or no bible study ain't been in my word  
Now I know better than this  
Cant live my life in sin We confess to him he'll remove all wickedness  
The blood from your son will wash me from my sins  
Clean this house, from the inside out  
Restore me, take away my impurity Lord I need you to  
Clean this house, from the inside out  
Restore me, take away my impurity Listen  
Now if it wasn't for your grace and mercy  
I don't know where I would be  
'cause you brought me out, brought me out  
Without a doubt, without a doubt You're more than a friend, more than a friend  
You're a confident, thank you lord for cleansing me  
I will always serve thee  
Clean this house, from the inside out  
Restore me, take away my impurity (break it down, break it down, break it down) Now  
everybody need a little cleaning sometimes And yeah, I can duce you to the best cleaner alive  
Every now and then we all go through a little strife  
But if you let him he will change your life

Now I can hear you saying  
That life's been rough, you've been going through a  
Whole lot of stuff  
God specializes in the impossible  
Just trust and believe  
His grace is more than enough  
Clean house  
In out  
Restore me  
Impurities
