

Lies

Will Sparks & New World Sound

[Verse 1]

Turn on the lights now, be real, why don't you?
'Cause actin' this thing out don't work
All the tricks that you playin', they fuck with my mind
Is there any truth or lies built on lies?
I give too much with no return

[Pre-Chorus]

By someone that loves so desperately
That I thought you were there for me
Why am I callin' on you if you don't reply?
Why am I fallin' for you when you don't touch me at all?

[Chorus]

Done with these f***in' lies
With these f***in' lies
Done with these f***in' lies
With these f***in' lies

[Verse 2]

All that we got left burnin' to ashes
'Cause everything's been said before
All the tricks that you playin', they fuck with my mind
Is there any truth or lies built on lies?
Won't take this shit anymore

[Pre-Chorus]

By someone that loves so desperately
That I thought you were there for me
Why am I callin' on you if you don't reply?
Why am I fallin' for you when you don't touch me at all?

[Chorus]

Done with these f***in' lies
With these f***in' lies
Done with these f***in' lies

With these f***in' lies
