

The Edge

Eiffel 65

I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge. And God knows if I've looked down
looked down. I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge. And God knows if I've looked down,
looked down.
I've been to the edge.
I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge. And god knows if I've looked down,
looked down. I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge. And god knows if I've looked down
looked down. I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge.
And god knows if I've looked down,
looked down. I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge. And God knows if I've looked down,
looked down.
I've been to the edge. I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge. And god knows if I've looked down,
looked down. I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge. And god knows if I've looked down,
looked down. I've been to the edge
And I've been to the edge
Yes, I've been to the edge
I've been to the edge. And God knows if I've looked down,
looked down.

I've been to the edge.I've been to the edge.
