

# Somebody Else (feat. Usher & Wiz Khalifa)

## Rico Love

It feels a way I can't explain so hold me babe, I know you can't stay too long  
And every melody has a way to remind me that one is your favorite song And I know we can't  
turn back time

I know we can't ride those roads  
But at least inside my mind it doesn't feel like you're gone  
Even thou I know you're too busy lovin' somebody else  
And you're a million miles past gone  
I wish my bed respond but you lovin' somebody else  
You can hear my heart saying, saying  
Are you lovin' somebody else?  
You can hear my heart saying, saying  
Cuz you lovin' somebody else?(somebody else)  
When I see your face I start to break  
I love you babe, it's hard to keep stay strong  
Cuz it's take straight to keep from crying, wish I knew how to now hold on And I know we can't  
turn back time

I know we can't ride those roads  
But at least inside my mind  
Even thou I know you're too busy lovin' somebody else  
And you're a million miles past gone  
I wish my bed respond but you lovin' somebody else  
You can hear my heart saying, saying  
Are you lovin' somebody else?  
You can hear my heart saying, saying  
Cuz you lovin' somebody else?(somebody else)  
You say I treat you like your ex did  
So you screaming off this, being to the exit  
They say love is like chess, well I've been playing check cuz to you I'm playing Tetrix  
Complicated and way too many levels  
Too many skeletons in my closet, way too many devils  
Too many elephants in the room, I need a shovel  
To my new dula (?) all we do is to settle  
Arguments about, all my wear about  
All the girls I was with, all the reason that I'mma be without  
But I'm honest enough to admit, I shoulda (?)  
The material stuff there's hard enough  
Now when I'm calling it's like I'm calling with what  
Now I know I shouda buy me a tox Even thou I know you're too busy lovin' somebody else  
And you're a million miles past gone  
I wish my bed respond but you lovin' somebody else  
You can hear my heart saying (uuh, uuh), saying (uuh, uuh)  
Are you lovin' somebody else?

You can hear my heart (uuh, uuh), saying (uuh, uuh)  
Cuz you lovin' somebody else?(somebody else)
