

Boomerang

Cole Swindell

[Verse 1]

Girl you got my days and my mind mixed up
Last night we were on fire
Now I'm layin' here wishin' it is what it was
And thinkin' love is a liar
The way you dance in and out of my hands
Ain't nothing I can do but hold you when I can

[Chorus]

You're like a boomerang
You like leadin' me on then you leave me alone
Aw, baby why, why you like a boomerang
Flyin' out of my arms off into the dark
Then you back again, like a damn boomerang

[Verse 2]

Every time I wonder where you are now
I get to lookin' out the window
Knowin' you know right where I can be found
And how to keep me from lettin' go
It's hard to get you out of my head
With your every now and then, crashin' in my bed

[Chorus]

Like a boomerang
You like leading' me on then you leave me alone
Aw, baby why, why you like a boomerang
Flyin' out of my arms off into the dark
Then you back again, like a damn boomerang

You're like a boomerang
You're cold, you're hot, you here then you not
Here you come now
Like a boomerang
I can't lock the door cause I can't wait for more
Give me some more
Boomerang
You like leadin' me on then you leave me alone
Aw, baby why, why you like a boomerang
Flyin' out of my arms off into the dark

Then you're back again, like a damn boomerang

[Outro]

Yeah you're way too good at this game

Aw, there you go, but I know you'll be back, you little boomerang

Here you come again
