

# Stingy

## Hotboii

Me and you together forever infinity  
I don't want to share you  
Kinda make me stingy  
Me and you together forever infinity  
Girl you my medicine, You my remedy  
Show me that your here for me  
Die for me and live for me  
Keep it real with me  
Don't go counterfeit  
Before you I was done gave you my love and i ran out of it  
Fussin then we fuckin all this fightin im gettin tired of it  
Baby girl just ride for me  
Never do the opposite yeah, yeah  
I want you until infinity yeah, yeah  
Roll in riches come get in with me yeah, yeah  
You know you know im armed  
But if i ain't had no arms  
Girl, for me would you be still there  
If i called you all alone  
Heart breakin like its done  
Girl, for me would you be still here  
I pop that bean yeah with some liquor im reminiscin  
Thinkin bout all of the times that weve been missin  
Aye  
In that pussy i leave kids in  
She jump on it and she ride with no ignition  
  
Aye, huh, what, do i love you? fo sho  
Mm, mm, she jump on it then she ride with no ignition  
  
She know im not peewee i won't ever limp  
Know these niggas fake i keep it real with them  
And that Glock give you a tec run up you gettin trimmed  
I catch a case he catch a case my niggas sendin them  
Freestylin i ain't need no pen  
Kno cus i got you i ain't need no friends  
I close my heart but you made me open it  
Gave you my heart and now these bitches offended  
I don't want to share you  
Kinda make me stingy  
Me and you together forever infinity  
Girl you my medicine, You my remedy  
Show me that your here for me

Die for me and live for me  
Keep it real with me  
Don't go counterfeit  
Before you I was done gave you my love and i ran out of it  
Fussin then we fuckin all this fightin im gettin tired of it  
Baby girl just ride for me  
Never do the opposite yeah, yeah
