

# I Still Wonder

## The Chain Gang of 1974

There must come a time  
When foolish games are played by two  
Just as long as the youthful  
Can separate the pain from truth  
Oh, the petals fall from desire and land on a liar  
The cemetery gates will do There you stood with the long stare  
And whispered in my ear  
I'm still haunting, haunting you We both knew that our good days were over  
There was nothing to do but sometimes I still feel  
Like I'm still sitting here with strange desire, yeah  
Cause I still wonder, I still wonder  
But I still wonder, I still wonder  
Some secrets are shameful  
It's part of all those teenage years  
But the sex and the regret  
Can slowly close one off with tears  
But I remember London in Winter  
A cigarette and her  
A moment I can't deny Now all alone with a blank stare  
I wish you were here  
I'm still haunting, haunting you We both knew that our good days were over  
There was nothing to do but sometimes I still feel  
I'm still sitting here with strange desire, yeah  
Cause I still wonder, I still wonder  
But I still wonder, I still wonder  
We both knew that our good days were over  
There was nothing to do but sometimes I still feel  
Like I'm still sitting here with strange desire  
Cause I still wonder, I still wonder  
But I still wonder, I still wonder  
Cause I still wonder, I still wonder  
But I still wonder, I still wonder
