

No Question

Prong

So thrilled we got you now
You can't, can't break the game
So glad, accept the choice
So glad you learned the ropes
You learned the ropes To try so far to go
The end you'll never know You have nothing to follow
The message a lost cause
And who cares about the lesson
No question of the loss
No question of the loss
No question of the loss So thrilled we've got you now
You can't, can't break the game
So glad, accept the choice
So glad you learned the ropes You have nothing to follow
The message a lost cause
And who cares about the lesson
No question of the loss No question of the loss
No question of the loss
No question of the loss
You have nothing to follow
You have nothing to follow No question of the loss
No question of the loss
No question of the loss
