

# Chokehold

## Tyler and the Tribe

Got a chokehold on the telephone line  
Tellin' everyone that I'm fine  
College ain't for everyone in the world  
I let this one get away  
A whole year the I just wasted away  
I was layin' there tryin' to sleep in my room I turned around to pack my bags  
Shoot the bird to a couple of fags  
Life's too short but never too strong I don't need this anymore  
I let go as I shut the door  
One last time  
Before I take the chance  
Three dollars in my back pocket  
People askin' "Have I lost my mind", yeah  
Well I pushed them behind me too  
If only they knew  
That I'm crazy, just like you 90 to nothin', county to county  
I'm headed to the OK border on Bounty  
There's someone up there that's worth a look I'm only lookin' for the best  
And I'm not gonna settle for less  
My heart and a tank of gas was all that it took Three weeks later it all came together  
Had a raw sound but it was all for the better  
With our Texoma style I sat down in my sweats  
And said "you're not through yet,  
You're going to be here a while."  
Three dollars in my back pocket  
People askin' "Have I lost my mind", yeah  
Well I pushed them behind me too  
If only they knew  
That I'm crazy, just like you September finally playin' hard  
After I pulled out my ace card  
I was finally doin' what I wanted to do Well I lost a few friends in the whole process  
But I met a few people I'll never forget  
It's all relative to you Three dollars in my back pocket  
People askin' "Have I lost my mind", yeah  
Well I pushed them behind me too  
If only they knew  
That I'm crazy, just like you! Just like you  
Oh, just like you! Whoa  
Yeah!  
?
