

Told You So

Elle King

[Verse 1]

No, I don't wanna talk about it
Leave me alone
I don't want to think about it
He's got a new girl, outback, in his home
I bet they stayed up all night long
On the telephone
He used to love me like that
Everybody gonna hit me with the, I told you so
But, I never wanna hear, I told you so
I never ever wanted to let you go

[Chorus]

(Can you hear me callin')
Oh, you've got to come home
(All the people talkin')
What's this I hear about some new girl
It's time we got our shit together
I don't wanna hear no
I don't wanna hear no
I don't wanna hear, I told you so

[Verse 2]

No, I don't wanna talk about it
Leave me alone
I don't want to think about it
He's got a new girl, yeah-yeah, I know
Bet they stayed up all night long
On the telephone
I wish you loved me like that
Everybody gonna hit me with the, I told you so
I never wanna hear, I told you so
I never ever wanted to let you go

[Chorus]

(Can you hear me callin')
Boy, you've got to come home
(All the people talkin')
What's this I hear about some new girl
It's time we got our shit together

I don't wanna hear no
I don't wanna hear no
I don't wanna hear I told you so

[Outro]

No, I don't wanna talk about it
Leave me alone
I don't want to think about it
He's got a new girl, yeah-yeah, I know
