

White Noise

Ella Vos

Hush now against the grain
Watch the clock ticking fade
Pray for a different scene
We can last, but won't receive
But you-uuu apologies over and over
You-uuu don't want to hear 'Cause it's all white noise swallowing me
Taking your high horse and I'll be free
'Cause it's all white noise swallowing me
Maybe we'll know why eventually
We see through the stars
Burning in the atmosphere
Down on the boulevard
Tell me what I want to hear
But you-uuu apologies over and over
You-uuu don't want to know 'Cause it's all white noise swallowing me
Taking your high horse and I'll be free
'Cause it's all white noise swallowing me
Maybe we'll know why eventually
'Cause it's all white noise swallowing me
'Cause it's all white noise swallowing me
Taking your high horse and I'll be free
'Cause it's all white noise swallowing me
Maybe we'll know why eventually
