

# Forget to Forget You

Scotty McCreery

If you see my number on your phone when you pick it up  
Or get a good morning text when you're wakin' up  
Or see my truck drivin' by at the end of the day  
If you get a letter in the mail from me now and then  
Or find a note on your door from me checkin' in  
If I send you a rose or a whole bouquet  
Well, pay no mind  
I just forget to forget you sometimes It ain't nothin' but a habit, I can break it  
I can shake it, I can make it on my own  
Ain't like I really care or I miss you  
Or it matters or I wish you weren't gone  
Don't think I'm that God  
I gotta get you back  
Probably never gonna get over you kind  
I just forget to forget you sometimes  
I wish you would've caught me out rockin' last night  
Instead of catchin' me sittin' through this green light  
Baby, I was on a roll 'til I heard that song  
It ain't nothin' but a ghost then it's gone again  
Ain't like I'm still stuck in what could 'a been  
Every part of me wants to be movin' on  
Except the back of my mind  
It just forgets to forget you sometimes It ain't nothin' but a habit, I can break it  
I can shake it, I can make it on my own  
Ain't like I really care or I miss you  
Or it matters or I wish you weren't gone  
Don't think I'm that God  
I gotta get you back  
Probably never gonna get over you kind  
I just forget to forget you sometimes  
Sometimes  
It ain't nothin' but a habit, I can break it  
I can shake it, I can make it on my own  
It ain't like I really care or I miss you  
Or it matters or I wish you weren't gone  
Don't think I'm that so lost without you  
Every thought's about you  
Holdin' onto somethin'  
That's never gonna happen  
God, I gotta get you back  
Probably never gonna get over you kind  
No, it's just that I

Forget to forget you sometimes  
Sometimes  
Oh, I forget to forget you sometimes
