

# Breakout

## Cash Cash

Let's go  
Follow me outside  
And I know it won't be long till  
I'm holding your hips tight I know you want to  
Leave them all behind  
So let's catch a cab down town now  
And light the fire up and make it right  
Cause There's nobody home tonight  
Break out and take it to the floor  
So I can take you on and give you all the things All the things we're not supposed to do  
Break out and take it to the floor  
We'll finally be alone just take me home with you tonight  
Just you and I  
And sing Oh Oh, and sing Oh Oh all night  
Let's go  
Cause I'm feeling wild  
And I know it won't be long till  
I'm touching your skin soft I know you want to  
Give it up to tonight oh no  
I would never break your heart girl  
Just give me one more chance to make it right  
There's nobody home tonight  
Break out and take it to the floor  
So I can take you on and give you all the things All the things we're not supposed to do  
Break out and take it to the floor  
We'll finally be alone just take me home with you tonight  
Just you and I  
And sing Oh Oh, and sing Oh Oh all night  
There's no one home hit the lights  
Break out and take it to the floor  
So I can take you on and give you all the things All the things we're not supposed to do  
Break out and take it to the floor  
We'll finally be alone just take me home with you tonight  
Just you and I  
And sing Oh Oh, and sing Oh Oh all night
