

Tints (feat. Kendrick Lamar)

Anderson .Paak

I been feelin' kinda cooped up, cooped up
I'm tryna get some fresh air
Hey why you got the roof off, roof off?
You know it never rains here
And you ain't gotta flash who you took in your picture
You ain't gotta draw on the waist of attention
Paparazzi wanna shoot ya, shoot ya
Niggas dyin' for less out here I been in my bag anyway
Tryna throw a bag in the safe
Giggin', tourin', tryna ride the bass
Wavin' my lil' ones and bathing apes
Niggas crying for less out here
Do what I gotta do bruh, do bruh
Get up in my rearview mirror
I can't be ridin', ridin' round that open strip
I need tints, I need tints
(Windows tinted, I need my windows tinted)
I can't be flying down that 110 with a bad bitch in my whip
I need tints, I need tints
(Windows tinted, I need my windows tinted)
And it's no good for me, it's so good for them
I need tints, I need tints
(Windows tinted, I need my windows tinted)
I got way too much to lose, so roll your window up real quick
I need tints, I need tints
(Windows tinted, I need my windows tinted)
You probably think a nigga trollin' (like...)
Or showin' out for the cameras (right...)
Fuck I'm doin' fish-bowlin'? ('side...)
One hunnid thou on the passenger
Bitch, I'm Kendrick Lamar, respect me from afar
I was made in his image, you call me a god
Everybody in attendance, I'm about to perform
Everybody get offended by the shit I got on
Like, can you buy that, nigga?
Nine hunnid horse, can you drive that, nigga?
A G5, can you fly that, nigga?
I need tints so I can look at the snakes and posers
(I need tint) 'Cause bomb head is non-disclosure
(I need tint) So I can live with a peace of mind
Without niggas takin' a piece of mine
And peace be still and not do fines, so fuck a fix-it ticket

You pull me over you might see one of your bitches, ahhh! I can't be ridin', ridin' round that
 open strip
 I need tints, I need tints
 (Windows tinted, I need my windows tinted)
 I can't be flying down that 110 with a bad bitch in my whip
 I need tints, I need tints
 (Windows tinted, I need my windows tinted)
 And it's no good for me, it's so good for them
 I need tints, I need tints
 (Windows tinted, I need my windows tinted)
 I got way too much to lose, so roll your window up real quick
 I need tints, I need tints
 (Windows tinted, I need my windows tinted) You know I like it presidential
 Stretch it out, that's a limo
 Pull it over let me get behind ya
 Where we goin' they don't need to know
 Ghost ridin' in the Phantom
 Niggas never see me comin'
 She wanna hold me like a ransom
 (Bitch, I don't know you)
 But the money keep me runnin' I been in my bag anyway
 Tryna throw a bag in the safe
 Giggin', tourin', tryna ride the bass
 Wavin' my lil' ones and bathing apes
 Niggas crying for less out here
 Do what I gotta do bruh, do bruh
 Get up in my rearview mirror I can't be ridin', ridin' round that open strip
 I need tints, I need tints
 (Windows tinted, I need my windows tinted)
 I can't be flying down that 110 with a bad bitch in my whip
 I need tints, I need tints
 (Windows tinted, I need my windows tinted)
 And it's no good for me, it's so good for them
 I need tints, I need tints
 (Windows tinted, I need my windows tinted)
 I got way too much to lose, so roll your window up real quick
 I need tints, I need tints
 (Windows tinted, I need my windows tinted) I, I think I'm 'bout to black out
 Can't see me when I act out tonight
 I got some moves I gotta make though
 I got the goons up on the payroll
 They won't see me coming
 They won't see me coming no, no
 I, I think I'm 'bout to black out
 Can't see me when I act out tonight
 I got some moves I gotta make though
 I got the goons up on the payroll
 They won't see me coming

They won't see me coming
