

Drown In the Now (Radio Edit) [feat. Matisyahu]

The Crystal Method

[Chorus] (Repeats)

Rock when I rip it when I'm rollin' on clouds
Shout loud breathe in, won't you drown in the now Said I rock when I rip it when I'm rollin' on clouds

Shout loud breathe in, won't you drown in the now Starship rippin' through the night
Trippin' through your sight

Pop up and shadow when I pop through the blind
Seen shades of rays as they move through the space

We lace, we up concrete streets
Streets tall pain brushes strokes

Oh so gloriously
Story unfolds which one will be told
Some get sold, some just fold
Multi beings releasing parallel
Songs swells to break all the dry spells
Late bells ring crack shells

When they got us
This love of life will propel righteousness
This love of life will propel righteousness
This love of life will propel ah

Take the message that you send with this vibrations
From the hearts of the young consolidations Sore of the hearts gone numb

Improve the situation
With the vision of the king
I rely on mountains

With assad and mic in my hand
I stand for the scene of sand

Mountains climb around them [Repeat Chorus 3x] Move like the misses to kiss this style
When ya dance in the darkness the quiet shout

[Repeat Chorus]

On the end, on the backflip crystal tracks
Method relax fast forward play back

Electrofied
Elecro night

Eclectic undefined in the moonlight
Shine bright how you'd like
Broken faces empty spaces make ok
Let my mind open up to the skies and pray
Raindrops like spots windshield spray
Don't stop, don't yield knots in the stomach

Not one, when you drop in the storm[Repeat Chorus]Who is the eye between lies
And eyes just try to take it through the night and sigh[Repeat Chorus]Conquest blessed like
don't burn a nest

Drugged outta style from the old dragnet[Repeat Chorus]Everyone gets stung one runs
One air with precision drum

That they overridden[Repeat Chorus 2x]See I rock when I rip it when I'm rollin' on clouds

Shout loud breathe in when you drown in the now

Move like the misses to kiss this style

When ya dancin' in the darkness, it's the quiet shout

On the end, hold back flip crystal tracks

The method relax the fast forward playback
