I'm really sorry, I didn't mean it.
Though what you said, I just can't believe it.
I feel discarded, I feel mistreated.
I think of lover, I killed the meaning.
Baby I, maybe I, can't shake the feeling that I could make it better.
If I could have sex with you.
I could make it better.
If I could have sex with you. Tired of losing, but there's no winning.
I dug a hole and I put us in it.
Now you're at a party, I feel defeated.
I think of lover, I think you're the meaning.
Maybe I, maybe I can shake the feeling that... I could make it better.
If I could have sex with you.
I could make it better.
(if I could have sex with you)
If I could have sex with you.
(With you)
(With you)
If I could have sex with you.
Right...
Right now, baby
It ain't over
It still ain't over
As soon as I get back again
I tell you that I never loved nobody else.
I tell you that I never touched nobody else.
I tell you that I never fucked nobody else.
I tell you that you never loved nobody else.
I tell you that you never touched nobody else.
I tell you that you never fucked nobody else.
