

# Nothing To Me

[Snoh Aalegra](#)

Baby, that means nothing to me

You promised me forever, it's alright

But you failed me as a lover, it's alright

You and me go back and forth, that's nothing new

I said I'm better on my own, there's nothing you can do

What's at home if I'm alone? Baby, that's it (Baby, that means nothing to me)

You're the type that can't commit to nothing (That ain't it)

Why you always acting wishy-washy? (That ain't it)

Why you always say you ready for me? (That ain't it)

When you know you ain't ready for me? (That ain't it)

We ain't friends if we fuckin', homie (That ain't it)

Come around and don't do nothin' for me (That ain't it)

You come around and don't do nothin' for me (That ain't it)

You come around and don't do nothin' for me

Now you wanna love me, baby (That means nothing to me)

Now you wanna make things right, but (That means nothing to me)

Now you wanna say you're sorry (That means nothing to me)

But you're the one that wants me around (Baby, that means nothing to me)

Could tell me that I didn't give my all, that's a lie

You got me holding on to nothing, no more wasting time

You and me go back and forth, that's nothing new

I said I'm better on my own, there's nothing you can do

What's at home if I'm alone? Baby, that's it (Baby, that means nothing to me)

You're the type that can't commit to nothing (That ain't it)

Why you always acting wishy-washy? (That ain't it)

Why you always say you ready for me? (That ain't it)

When you know you ain't ready for me? (That ain't it)

We ain't friends if we fuckin', homie (That ain't it)

Come around and don't do nothin' for me (That ain't it)

You come around and don't do nothin' for me (That ain't it)

You come around and don't do nothin' for me

Now you wanna love me, baby (That means nothing to me)

Now you wanna make things right, but (That means nothing to me)

Now you wanna say you're sorry (That means nothing to me)

But you're the one that wants me around (Baby, that means nothing to me)

He wants to hold me, I'm alone

He wants to hold me, I'm alone

He wants to hold me, I'm alone

Baby, that means nothing to me

Yeah, yeah, yeah

That means nothing to me

That means nothing to me
