

Mystery

Matisse & Sadko

[Chorus]

So let's be fearless in the dark
It could be tragic, we could be magic
Give me a shot and don't bail out
It's up to you and me to make some mystery

[Post-Chorus]

So let's be fear..
So let's be fear...
So let's be fear...

[Verse]

We rumble and roll like rocks, hide undercover
While down the city blocks
We might find a dazzling, lover

[Pre-Chorus]

Trust me and you'll be your alien friend
To tear down the fences
Lend me this night and lose all your fears
We're pioneers

[Chorus]

So let's be fearless in the dark
It could be tragic, we could be magic
Give me a shot and don't bail out
It's up to you and me to make some mystery

[Post-Chorus]

So let's be fear..
So let's be fearless in the dark
It could be tragic, we could be magic
Give me a shot and don't bail out
It's up to you and me to make some mystery
