Shoulder to Shoulder

Tate McRae

There ain't nothing wrong you could say
I can see lies right through your face
I've got about an hour or twoThe silence is killing you
There ain't nothing wrong you could sayWe'll treat it like a summer night
I cross my heart and hope to die
And I swear I won't leave till it's over
I'll be here with you shoulder to shoulder
We'll talk until you feel alright
I cross my heart and hope to die
And I swear I won't leave till it's over
I'll be here with you
Shoulder to shoulder
You've seen a lot more than pain
I don't know what I should say
I've got about a story or two
The silence doesn't know you like I do
Just so you know you're not alone todayWe'll treat it like a summer night
I cross my heart and hope to die
And I swear I won't leave till it's over
I'll be here with you shoulder to shoulder
We'll talk until you feel alright
I cross my heart and hope to die
And I swear I won't leave till it's over
I'll be here with you
Shoulder to shoulder
Give me tears and I'll give you tissues
I'm always with you
I miss you when you go
Give me years and I'll be here listening
I'm always with you
I hope you always knowGive me tears and I'll give you tissues
I'm always with you
I miss you when you go
Give me years and I'll be here listening
I'm always with you
I hope you always knowWe'll talk until you feel alright
I cross my heart and hope to die
And I swear I won't leave till it's over
I'll be here with you
Shoulder to shoulder
