

Perfect Bitch

Moneybagg Yo

Uh-uh-uh

Huh-uh-uh

She do somethin' better than her,
she do somethin' better than the other one
She get crazy sometimes Both of them together make the perfect bitch (both of them)
Wish I could have them both because I hate to pick (I hate this shit)
Complicated, situation delicate (so delicate)
Can you stop the allegations and the petty shit?
Can you change it up for me and make the perfect bitch?
Is you gon' hold a nigga down through the worst of it?
Can you fix your attitude and make
the perfect bitch? (the perfect one)
Can you switch it up for me and
become the perfect bitch? (perfect one)
See one of my bitches is nice, the other one aggressive (ratchets)
The new one know her place but the old one get so possessive
I hate when they both don't play their part, ooh that's messy
I deal with so much shit in the streets, ooh don't stress me
I can't choose, both of y'all bad, I can't lose
You call me bae, she call me zaddy
You tell me no, she automatic
And I love y'all both the same, and I know that's crazy
Whoever leave me first, the other one she gon' be my lady (yeah yeah)
If I took her attitude and your sex drive (what'd happen?)
And put it one bitch it would be so live (litty)
Maybe even perfect
If your spot was on the line, would you show me you deserve it?
Show me she ain't worth it? (answer that)
Both of them together make the perfect bitch (both of them)
Wish I could have them both because I hate to pick (I hate this shit)
Complicated, situation delicate (so delicate)
Can you stop the allegations and the petty shit?
Can you change it up for me and make the perfect bitch?
Is you gon' hold a nigga down through the worst of it?
Can you fix your attitude and make
the perfect bitch? (the perfect one)
Can you switch it up for me and
become the perfect bitch? (perfect one) Would you hold me down like gravity if I got jammed?
If I gave it all up today would I still be your man? (answer that)
When we got together other bitches wasn't in the plan
Now it's like you my right but she my left hand (true story)
I need a machine I can tell what I need, and it create a bitch

Bad and bougie, not a basic bitch
My money good, I'ma pay for it (pay for it)
I know nobody is perfect, I'm just sayin' what if (what?)
I could have who I want with, welcome to my fantasy
Don't judge me (nah) Both of them together make the perfect bitch (both of them)
Wish I could have them both because I hate to pick (I hate this shit)
Complicated, situation delicate (so delicate)
Can you stop the allegations and the petty shit?
Can you change it up for me and make the perfect bitch?
Is you gon' hold a nigga down through the worst of it?
Can you fix your attitude and make
the perfect bitch? (the perfect one)
Can you switch it up for me and
become the perfect bitch? (the perfect one)
