Jamie Foxx

Yeah ladies I know you tired of the same old thing,  
Things have become so mundane  
I mean your bedroom is so cold, so cold but I'm here to tell you  
I got a strategy we 'bout to heat it up.  
(I like that)Girl get comfortable we bout to do something you never done before  
Baby not the usually tonight we gettin' unpredictable  
So try to roll wit me baby... baby  
I'm a make you feel like you never felt,  
Girl all because you let me get unpredictable.  
Baby, 1 plus 1 ain't 2 when you wit me  
C aint afta A and B when you wit me  
It don't make sense right now but it will  
Later on when you see how I make you feel  
Regular ain't in my vocabulary  
When it comes to love makin be the neither is missionary  
Positions, girl pick one better yet two  
Never mind that we tryin' all the fun SoGirl, get comfortable we bout to do something you  
never done before  
Yeah  
Baby not the usual tonight we gettin' unpredictable  
So try to roll wit me baby  
Baby  
I'm a make you feel like you never felt,  
Girl, all because you let me get unpredictable.  
I know you're use to dinner and a movie  
Why not be my dinner, while makin' a movie  
Do you get it get it  
Do you got it got it  
Good good good  
Girl, I knew you would  
See what I got over a lot of fellas is that I'm more creative  
And soon you will see what I mean, what I mean so.Girl, get comfortable we bout to do  
something you never done before  
Baby not the usually tonight we gettin' unpredictable  
So try to roll wit me baby... baby  
I'm a make you feel like you never felt,  
Girl all because you let me get unpredictable.All Aboard!  
The spontaneous express  
Never the less always the more  
From the pool table to the kitchen floor  
Next stops the G spot... Luda!  
[I like that.]

I like it too baby.  
Let me put a little bit of excitement  
Up in yo lifestyle  
You gotta know the times of the essence  
I'm talkin' right now  
I can get, get rid of that headache  
What you doin' tonight  
Some say that sex is overrated, but they just ain't doin it right  
I keeps it interestin' baby just take them clothes off  
I'll be yo Tylenol just take me till you dose off  
Wake you up in the middle of the night and take you to another world  
You'll wake up in the mornin' feelin' like another girl. Girl get comfortable we bout to do  
something you never done before  
Done before  
Baby not the usually tonight we gettin' unpredictable  
So try... So try to roll wit me baby  
Baby  
I'm a make you feel like you never felt,  
Girl all because you let me get unpredictable.
