

You

Snoh Aalegra

[Verse 1]

I keep it on the low until I know
That's it's you for sure, just to be safe
The people I have told, yeah
Say we can't love
I've said too much, I've said too much
To take it back (To take it back)

[Chorus]

You, you
I just can't live without you, ooh, ooh, babe
That shit I speak about, think about, can't do without
But I can't live without you, you

[Verse 2]

I wish I thought before I, I spoke, yeah-yeah
Made up my mind before I told
Everybody close to me
That you are no good to me

They're non-believers
'Cause they had to see me, see me that way
But I only see us, oh yeah
Yeah, I only see

[Chorus]

You, you
I just can't live without you, ooh, ooh, babe
That shit I speak about, think about, can't do without
But I can't live without you, you

[Outro]

(Think about, can't do without)
Can't live without, think without
You, you
