

# The Chicken Cow

Wesley Willis

The chicken cow (4X)

This beast killed as many as 100,000 people

It's wings can flap like a bird

It can break a glass

It can also stab you in the ass

The chicken cow (X4)

This beast attacked my brother

It stabbed him in the ass while he was standing in the

cold

His hands were frostbitten

His hands were also numb

The chicken cow (X4)

Rock over London!

Rock on Chicago!

Blockbuster Video...Wow, what a difference
