

Resentment

A Day to Remember

Resentment! I made a short term fix for a long term problem
Can I learn to love these chains?
I know I had a point but now I forgot it
I'm circling the drain
No, I can't stop feeling like every day is exactly the same
With a one track mind I don't think I can change
Trapped in memories, stuck on replay, replay, replay
Starts with a spark, then it's a wildfire
Burning me up
Burning me up
I dance with demons on a high wire
Lift me up
Lifting me up
Resentment!
You know I lost my voice when I let the rot in
(Heard you cut both ways)
Pouring out my heart, all this unforgiven
Washing over me like rain
No, I can't stop feeling like every day is exactly the same
With a one track mind I don't think I can change
Trapped in memories, stuck on replay, replay, replay
Starts with a spark, then it's a wildfire
Burning me up
Burning me up
I dance with demons on a high wire
Lift me up
Lifting me up
Resentment! I've got this chip on my shoulder
So I press the issues on sight
For all who needed your judgement
Welcome to the eye of the tiger!
GO! Starts with a spark, then it's a wildfire
Burning me up
Burning me up
I dance with demons on a high wire
Lift me up
Lifting me up
Starts with a spark, then it's a wildfire
Burning me up
Burning me up
I dance with demons on a high wire
Lift me up
Lifting me up
(It's a wildfire,
It's a wildfire)
Resentment!
(It's a wildfire,
It's a wildfire)
Resentment!
