Awful Things

Lil Peep

Bother me, tell me awful things You know I love it when you do that Helps me get through this without youBother me, tell me awful things You know I love it when you do that Helps me get through this without you Bother me, tell me awful things You know I love it when move that on me Love it when you do that on me You lack attention, I find it obvious She makes it obvious for me She feels the tension It's just the two of us, it's just the two of us tonight Burn me down 'til I'm nothing but memories I get it, girl (I get it, girl) I get it, girl Burn me down 'til I'm nothing but memories I get it, girl (I get it, girl) I'm not the oneBother me, tell me awful things You know I love it when you do that Helps me get through this without you Bother me, tell me awful things You know I love it when you move that on me Love it when you do that on me Don't you turn your back on me Let your teardrops fall on me Speeding away, the city in the rear view Heart racing whenever I'm near you Goth boy jumping on stage Carry me away, carry me away Burn me down 'til there's nothing left I will scream your name with my last breath Take off your favorite dress Lay your head on my chest Diamonds, rubys and gems You can have all of themBother me, tell me awful things You know I love it when you do that Helps me get through this without you Bother me, tell me awful things You know I love it when you move that on me Love it when you do that on me
