

# Big Eyed Beans from Venus

## Captain Beefheart & His Magic Band

Distant cousins, there's a limited supply.  
And we're down to the dozens, and this is why:  
Big Eyed Beans from Venus! Oh my, oh my. Boys and girls,  
Earth people around the circle,  
Mixtures of man alive.  
Big eyed beans from Venus,  
Don't let anything get in between us. Beam in on me baby,  
and we'll beam together  
I know we always been together,  
but there's more. Mister Zoot Horn Rollo, hit that long lunar note,  
and let it float.  
Men let your wallets flop out,  
and women open your purses,  
Cause a man or a woman without a big eyed bean from Venus  
Is suffering with the worstest of curses  
Yeah, you're suffering, with the worstest of curses. Put 'em out in the sun, and when the night  
come  
You don't have to go out and get 'em  
They'll glow with you  
They'll go with you  
They'll show with you  
Ain't no losers  
Cause they're on the right track  
Cause they're on the right track  
You can be on the right track, woman,  
Of course, of course Ain't no SNAFU, no fol-de-rol  
Check these out, Big eyed beans from Venus  
Oh, let a few out, let 'em pass in between us Distant cousins, there's a limited supply.  
And we're down to the dozens, and this is why... Don't let anything get in between us!  
Big eyed beans from Venus.
