

# Steven's Last Night In Town

## Ben Folds Five

[Verse 1]

Everyone gather round now, sing us a song  
Just in case by tomorrow it happens he's gone  
For two weeks and seven days our fair foreign friend  
I have this feeling we might never see Steven again

[Chorus]

But we thought he was gone  
And now he's come back again  
Last week it was funny  
And now the joke's wearing thin  
Cause everyone knows now, that every night now  
Will be Steven's last night in town

[Verse 2]

He's charmed everyone here, except Tamara Easter  
Who later revealed to him her innermost secrets  
Won us over with stories about Linda McCartney  
Lost points with the ladies for saying he couldn't  
Love a woman with cellulite

[Chorus]

But we thought he was gone  
And now he's come back again  
Last week it was funny  
And now the joke's wearing thin  
Cause everyone knows now, that every night now  
Will be Steven's last night in town

Kick that shit say  
Kick that shit say  
Kick that shit say  
Kick that shit say

[Verse 3]

We were talking 'bout something, seems like was funny  
And then Steven got quiet, I think Steven was mad  
Maybe he wasn't mad, but we felt very strange  
In the moment, but the moment was passed

And forgotten about

[Chorus]

But we thought he was gone  
And now he's come back again  
Last week it was funny  
And now the joke's wearing thin  
Cause everyone knows now, that every night now  
Will be Steven's last night in town
