

# Black Cadillac

## Shinedown

I got a mind full of aggravation  
I can take it if I just relax  
I say a prayer for the motivation  
Keep me solid so I stay on track  
But there's a monkey on my back  
And it don't know how to act  
Got me climbin' up and down the walls  
Now I gotta make a choice  
Maybe then I can rejoice  
'Cause I'm sick of all the same withdrawals  
I got a mind full of inspiration  
And I ain't livin' in the past no more  
So feast your eyes  
On the big, blue sky  
And wave bye bye  
From a long, black Cadillac  
Pay the price  
Gotta roll those dice  
And wave bye bye  
From a long, black Cadillac  
From a long, black Cadillac (Cadillac)  
I hear the sirens of redemption  
Screamin' out like never before  
And there's a roadblock in every direction  
But I ain't stoppin' 'cause I'm in control  
And there's a monkey on my back  
So I gotta set a trap  
'Cause I'm sick of all the same withdrawals  
I got a mind full of inspiration  
And I ain't livin' in the past no more  
So feast your eyes  
On the big, blue sky  
And wave bye bye  
From a long, black Cadillac  
Pay the price  
Gotta roll those dice  
And wave bye bye  
From a long, black Cadillac  
Ridin' high in a long, black Cadillac  
Ridin' high in a long, black Cadillac  
In a long, black Cadillac  
I ain't living in the past no more

I ain't living in the past no more  
Screaming out like never before  
Screaming out like never before  
(1 2, 1 2 3 4)  
So feast your eyes  
On the big, blue sky  
And wave bye bye  
From a long, black Cadillac  
Pay the price  
Gotta roll those dice  
And wave bye bye  
From a long, black Cadillac  
Feast your eyes  
On the big, blue sky  
Ridin' high in a long, black Cadillac  
Feast your eyes  
On the big, blue sky  
Ridin' high in a long, black Cadillac  
Feast your eyes  
On the big, blue sky  
Ridin' high in a long, black Cadillac  
Feast your eyes  
On the big, blue sky  
Ridin' high in a long, black Cadillac
