## H.E.R.

I don't even feel at home  
But I keep my feelings low-key  
Locking me out with no key  
I just wanna go, you want me to leave  
I don't even feel no love  
Only in-between the sheets  
Only time you notice me  
When I make you feel right  
You don't see what I see (Yeah) Kissing me goodnight  
Wakin' up to the sunlight  
But you only want me over late  
Tall glass of lemonade  
You don't ever say forever  
Laying next to me  
But nights like this I wish I never  
Said that I was free  
You don't ever say forever  
Laying next to me  
But nights like this I wish I never  
Said that I was free, free, free, free I'm always gon' answer your calls  
Talking 'bout: Come and see me  
I know we ain't even that deep  
I'm still coming anyway, maybe it'll change  
I only worry 'bout you  
Worry 'bout whatever you need  
Always give it to you for free  
And I know it ain't right  
You don't see what I see  
Kissing me goodnight (goodnight)  
Waking up to the sunlight (sunlight)  
But you only want me over late  
Tall glass of lemonade You don't ever say forever  
Laying next to me (laying next to me)  
But nights like this I wish I never  
Said that I was free (free)  
You don't ever say forever  
Laying next to me  
But nights like this I wish I never  
Said that I was free, free, free, free (Said I was) free, free, free, free  
(Free, free)
