

Feel a Way

H.E.R.

I'm up, late night, my phone so dry
No goodnight, I'm tight 'cause I'm paranoid
I can't sleep you're still mad at me
It's not that deep, we been here before

Oh, I hate when you do that shit (oh, oh)
Please stop bringin' up the past shit (oh, oh)
Tell me I'm being irrational (know, know)
You're in your feelings, but all I know is-

Don't make me feel a way
Don't make me feel a way
Don't make me feel a way
Don't make me feel a way (don't make me feel)
Don't make me feel a way (don't make me feel)
Don't make me feel a way (don't make me feel)
Don't make me feel a way
Don't make me feel a way

Crazy but you made me like that
2AM I thought you was on the way
It's your fault, I played my part

Don't start that talk like, you ain't planned to stay

Oh, I hate when you do that shit (oh, oh)

Now I'm bringin' up the past shit (oh, oh)

Tell me I'm being irrational (know, know)

I'm not dealing with you all I know is-

Don't make me feel a way

Don't make me feel a way

Don't make me feel a way

Don't make me feel a way (don't make me feel)

Don't make me feel a way (don't make me feel)

Don't make me feel a way (don't make me feel)

Don't make me feel a way

Don't make me feel a way

I've been trying so hard not to go off but you're trying me

Trying me, yeah

I've been trying so hard not to go off but you're trying me

Oh, trying me

Don't make me feel a way

Don't make me feel a way (away from me)

Don't make me feel a way (a way)

Don't make me feel a way (no way)

Don't make me feel a way (don't make me feel)

Don't make me feel a way (don't make me feel)

Don't make me feel a way (don't make me feel)

Don't make me feel a way

Don't make me feel a way

Yeah, oh, ooh

Don't make me feel

Don't make me feel

Na na, na na, na
