

Say It to You

Caroline's Spine

when the man spoke the people listened
and they followed him to his death
and i was the closest to him
and this i must confess
that i never felt i had the chance to say
all these things that were in this heart of mine
you say you learn from your big mistakes
i think it's just about time that isay it to you
say it to me
say it to all of us
i'm sick of people talking outta their ass
about the way things are today
they bitch and moan every time
you see them in their own peculiar way
they're lunchin', they're munchin'
and then they start punchin'
'cause they just can't get it straight
what's the use of beating around the bush
unless you're getting a littlesay it to you
and i say it to me
and i say it to all of us
say it to you
and i say it to me
and i say it to all of us
i'm sick of living this life in gray
black or white, love or spite
just give me the facts on what you're feeling
you know i'm feeling
i try to be patient, but you're killing mesay it to you
say it to me
and i say it to all of us
say it to you
and i say it to me
and i say it to all of us
and i can tell me family at home
