

Sidewayz (feat. Sam Grow)

Demun Jones

No rules when you come out my way

That's why my field stays packed on Fridays

We hunting, fishing, good living

Just soaking up every country second we're given

Yeah we a long way away from the highway

So go ahead, y'all, you can get sidewayz

Smoking, sipping, dip spitting

Just soaking up every country second you're given

So once you cash your paycheck and count it, whatcha gonna do now?

Well in my county we hold it down and everybody's allowed

We all know all of y'all, it ain't no thing to draw a crowd

You just follow the sound away from town to the music playing loud

Leave your stress and politics at home, where they belong

And we'll build a memory of a lifetime, it's the kind you hear in a song

We only get this life to live, come on and live it before it's gone

Every second we give and that's a gift and it won't last long

So let's spend it like it's the last, doing whatever we'd like

Surrounded by friends and family, telling jokes, laughing all night

Sipping on whatever you brought to drink, dancing till the morning light

Country fried, dyed, laid sideways come on let's ride

No rules when you come out my way

That's why my field stays packed on Fridays

We hunting, fishing, good living

Just soaking up every country second we're given

Yeah we a long way away from the highway

So go ahead, y'all, you can get sidewayz

Smoking, sipping, dip spitting

Just soaking up every country second you're given

So let that music take you up and away, enjoy the view

Keep that playlist a-pumping and the girls'll do what they do

Keep your cash in your pocket 'cause we don't care what you got

Here and now, that's the money, hey man and that's a lot

Spending time off of your clock, vibing until it shocks, the

Energy here is electric, we dancing on every jukebox

Lose the socks, it's a party, we turnt off in the field

And if I said that I was then you best believe that I will

Make you feel good for real, way more than a pill could

Make every worry melt away in the flame, man I like the wood

I got that bonfire r-rolling, the pile is burning high

Country fried snapping pics sidewayz, come on let's ride

No rules when you come out my way

That's why my field stays packed on Fridays

We hunting, fishing, good living

Just soaking up every country second we're given

Yeah we a long way away from the highway

So go ahead, y'all, you can get sidewayz

Smoking, sipping, dip spitting

Just soaking up every country second you're given
