

Vitamin D

Sad Frosty

[Verse]

Vitamin D, its all in my body
Drinking that water, I don't pop no molly
New kicks on my feet like I do karate
Voncre on my body, I don't wear no tommy
You smoking on juuls, I'm hopping in pools
Oprah giving me top, with her mouth she a fool
Said fuck high school, I don't follow no rules
Get 10 bands in, I ain't copping no jewels
Melatonin, yeah I need it for sleep
Air Force 1, keep em right on my feet
Met her one time, and I already beat
He dissing on twitter, no time for these tweet
That bitch, she boujee for no reason
I hit that hoe with the four season
Money long like I'm Morgan Freeman
A milli in cash, I seen it, you dreaming
Keyboard warrior, boy you a bitch
Don't need a gun cus' I tote me a switch
Run up, get done up, I sight from the hip

These lil boys they jealous, they burn through a bitch

Tats on my body, I feel like I'm 2pac

Bitch I'm a loner, man shoutout to luap

I don't do no drugs like my name is Guwop

I don't do no drugs like my name is Guwop

Shh, don't make a sound

They see my numbers and they start to frown

The frosty didn't know me how this is my town

I told you before I come for the crown yahh

Back in eight grade, I was trappin' them shoes

Now I make hits and I count up them blues

Now when I fuck, like bitches in 2's

I still run the force I don't want a damn truce

I came up from nothing in six months

I need that house with the pool in the front

They see me in public and know I'm a stunt

I hit his main bitch kick it out like a blunt

They like damn lil frosty you snapped on the beat

How your name frosty but all your shit heat

I fucked on his girl and that bitch a lil freak

You know I'm from Texas, listen how I speak. (what, yahh)
