

Life We Live

Jah Cure

Every time you take one step
Something pulls you back
But you get back up each time you fall (aye)
Wicked people and bad mind
Lurking in the dark
But I have no fear I walk with Jah (aye) Turn the world off
And turn the music on
Just light up another one
Relax and just close your eyes (oh ooh)
Natural mystic is in the air
Bob Marley says have no fear
Everything is going to be alright
Some days you're up and some you're down
Weak today, tomorrow strong
Some you'll lose and some you're going to win (aye)
That's the life the life the life the life we live
The life the life we live (wooo wooo wooo) Every time you hear this song
Put your lights up
Keep the fire burning in your soul (yeah)
Good vibrations everywhere
Feel it in your bones
Too blessed to be stressed is what I sing (aye) Turn the world off
And turn the music on
Just light up another one
Relax and just close your eyes (oh ooh)
Natural mystic is in the air
Bob Marley says have no fear
Everything is going to be alright
Some days you're up and some you're down
Weak today, tomorrow strong
Some you'll lose and some you're gonna win (aye)
That's the life the life the life the life we live
The life the life we live (wooo wooo wooo) That's the life the life the life the life we live
The life the life we live (wooo wooo wooo)
