

# Closure (You Like)

Lil Nas X

[Chorus]

True say, I want and I need  
To let go, use my time to be free  
It's like it's always what you like  
It's always what you like  
Why it's always what you like?  
It's always what you like, huh

[Post-Chorus]

Ain't no more actin', man, that forecast say I should just let me grow  
No more red light for me, baby, only green, I gotta go  
Pack my past up in the back, oh, let my future take ahold  
This is what I gotta do, can't be regrettin' when I'm old

[Verse]

Brand new places I'll choose and I'll go, I know  
Embracin' this news I behold unfolding  
I know, I know, I know it don't feel like it's time  
But I look back at this moment, I'll see that I'm fine  
I know, I know, I know it don't feel like it's time  
I set boundaries for myself, it's time to cross the line

[Chorus]

True say, I want and I need  
To let go, use my time to be free  
It's like it's always what you like  
It's always what you like  
Why it's always what you like?  
It's always what you like, uh

[Post-Chorus]

Ain't no more actin', man, that forecast say I should just let me grow  
No more red light for me, baby, only green, I gotta go  
Pack my past up in the back, oh, let my future take ahold  
This is what I gotta do, can't be regrettin' when I'm old
