

# Long Trip Alone

[Dierks Bentley](#)

it's a long trip alone over sand and stone  
that lie along the road that we all must travel downso maybe you could walk with me a while  
and maybe i could rest beneath your smile  
everybody stumbles sometimes and needs a hand to hold  
'cause it's a long trip aloneit's a short piece of time but just enough to find  
a little peace of mind under the sun somewhereso maybe you could walk with me a while  
and maybe i could rest beneath your smile  
you know we can't afford to let one moment pass us by  
'cause it's a short piece of time  
and i don't know where i'd be without you here  
'cause i'm not really me without you thereyea yeah  
hallelujah hallelujah ohso maybe you could walk with me a while  
maybe i could rest beneath your smile  
everybody stumbles sometimes and needs a hand to hold  
so maybe you could walk with me a while  
maybe i could rest beneath your smile  
maybe i could feel right beside you 'til i'm home  
'cause it's a long trip alone
