

# Never

Tamar Braxton

You don't ever wanna  
Take the time to love me  
Get back to me slowly  
Always in a hurry  
What did I do to deserve this? You don't ever wanna  
Hold me in the morning  
Taking all the covers  
Never cuddle with me  
You just don't know what I'm feeling You treat me like I'm nothing  
You take me for granted, you're tripping  
Walking round here like I owe you something  
Always going out my damn way  
Just to keep you happy  
Well since you wanna act like that I swear you'll  
Never kiss my lips again  
I promise that you'll  
Never feel my love again  
Never again, no never! I don't think you ever  
Even noticed that I'm  
Always cooking dinner  
Like every single night  
Tell me do you even care? And I don't think you ever  
Looked me in the eye  
Tell me baby thank ya  
Cuz you do a lot  
I don't even know why I'm still here  
You treat me like I'm nothing  
You take me for granted, you're tripping  
Walking round here like I owe you something  
Always going out my damn way  
Just to keep you happy  
Well since you wanna act like that I swear you'll Never kiss my lips again  
I promise that you'll  
Never feel my love again  
Never again, no never! Since you wanna act like that  
Imma pack my love and I ain't coming back  
And since you wanna do me this way  
Imma make sure I give your love away  
And since you ain't really love me  
Imma find one who on  
And when you're alone  
Don't be blowing up my phone because you'll Never kiss my lips again

I promise that you'll  
Never feel my love again  
Never again, no never! Never kiss my lips again  
I promise that you'll  
Never feel my love again  
Never again, no never!
