## Oblivion

## Grimes

I never walk about after dark It's my point of view 'Cause someone could break your neck Coming up behind you Always coming and you'd never have a clue I never look behind all the time I will wait forever Always looking straight Thinking counting all the hours you waitSee you on a dark night See you on a dark night See you on a dark night See you on a dark night And no, I'm not a jerk I would ask if you could help me out It's hard to understand 'Cause when you're running by yourself It's hard to find someone to hold your hand You know it's good to be tough like me But I will wait forever I need someone else To look into my eyes and tell me "Girl, you know you've got to watch your health."To look into my eyes and tell me Lalalala To look into my eyes and tell me Lalalala Lalalala Lalalala Lalalala Lalalala See you on a dark night See you on a dark night
