

Illuminate Eliminate

Mayhem

Where I came from... I must return
No more, nothing left to do
No other mission Weak and devastated
The strength had gone
Don't want to know more
Don't want to understand
Lost and empty
Only want to go, pass away
Send the self back
Exist here no more
Completely nothing So many empty words been heard
So many meaningless thoughts been received
Whatever done equals zero times everything
No love no hate no faith no memory
Enter another sphere
Complete the emptiness Desperately alone, fuck the race
Wide open and passing through
