

That's Love (feat. Mac Miller & Heather Victoria)

9th Wonder

Love song, aha
9th wonder, come on
It ain't cool to make a love song, love song
They looking at me like there's something wrong
This ain't a song about causing drugs
Even gangsters motherfuckers fall in love
I got a girl who always tripping on these bitches
Who keep trying to come and holler
I don't bother with these groupies who just wanna chase a dollar
My everything I got her, platinum and copper
We gonna stay together till one of us use a walker
She popular, but I got her first
I tried she denied so I got to work
I gotta let her know the way her smile tend to glow
In the time we took that... world
I disconnect cordless, felling all distorted
Bored with the... bored of all that bullshit
I bet she never thought I'd have her fall in love
Beauty or brain, maybe she all of the above
Come on
It ain't cool to make a love song, love song
They looking at me like there's something wrong
This ain't a song about causing drugs
Even gangsters motherfuckers fall in love
It ain't cool to make a love song, love song
They looking at me like there's something wrong
This ain't a song about causing drugs
Even gangsters motherfuckers fall in love I know that every time I do something wrong
I can't just get away with it by making a song
Getting through this... it's taking too long
But if it's what you wanna do then I'm playing along
Cause I know you love me though so I love you back
And some shit I do is fucking whack
But you don't care about your hundred stacks
You just your fucking bobby back
But I'm somewhere far, way out on a tour
Living it large, it's everything and more
My dream come through, start to follow with you
You want me at home, but I'm all in the move
When I'm back at the crib, we gonna go on a cruise

My alarm goes off, I'm a reach for the snooze
Nothing to say, but so much to do
The second that we met, I was falling for you
Come on
It ain't cool to make a love song, love song
They looking at me like there's something wrong
This ain't a song about causing drugs
Even gangsters motherfuckers fall in love
It ain't cool to make a love song, love song
They looking at me like there's something wrong
This ain't a song about causing drugs
Even gangsters motherfuckers fall in love
Like that like that, yeah
It's the wonder years
Inside it's love
Even gangsters motherfuckers fall in love
Even gangsters motherfuckers fall in love
It's love
Even gangsters motherfuckers fall in love.
