

# **Best Dream**

**John Otway**

I think it must be the best dream I've ever had  
To be with you on such a starry night it can't be surpassed  
And after all the other kids my friends have dated with  
By far baby, the best of all is you

Ain't there no-one else around to love me when I'm down  
And not treat me like a fool and wouldn't be so cruel to leave me?

And I think it was almost the dream of dreams  
To be with you so high and so finally  
I'll forget the other girls that I have in my dreams  
'cause by far baby, the best of all is you

Ain't there no-one else around to love me when I'm down  
And not treat me like a fool and wouldn't be so cruel to leave me?

Solo

Ain't there no-one else around to love me when I'm down  
And not treat me like a fool and wouldn't be so cruel to leave me?

Solo
