

Beer Me

Chris Janson

When the work's all done and the sun goes down beer me
When the game is on and it's fourth and long beer me
When I'm watching that bobber bobbing in the water
Mercury's a hundred and three
One leads to two, silver turns to blue
You know what to do, beer me On days or nights that end in "Y"
Hell anytime right about now
When I'm celebrating or I'm hydrating
When I'm up or when I'm down
Grab a can, fill a cup
Twist a bottle, tap a jug
On a boat, at a bar, on a beach
Any old time's a damn good time to beer me
If you need a good friend to kill a long weekend beer me
When the rocks get red on a big Green Egg beer me
If you wanna see a good boy as happy as a good old boy can be
When the party breaks out and the Hank breaks out
I wanna see it go down beer me On days or nights that end in "Y"
Hell anytime right about now
When I'm celebrating or I'm hydrating
When I'm up or when I'm down
Grab a can, fill a cup
Twist a bottle, tap a jug
On a boat, at a bar, on a beach
Any old time's a damn good time to beer me And when my South Georgia's looking so fine
Sitting there sipping that wine, beer me
On days or nights that end in "Y"
Hell anytime right about now
When I'm celebrating or I'm hydrating
When I'm up or when I'm down
Grab a can, fill a cup
Twist a bottle, tap a jug
On a boat, at a bar, on a beach
Any old time's a damn good time to beer me
Any old time's a damn good time to beer me
