

For the First Time

John Legend

[Produced by Dave Tozer & John Legend]

[Verse 1]

Is that music in my ear
It's like I heard nothing for a thousand years
My eyes were closed, locking in my tears

I was so surrounded but still all alone
A great big house but so far from home
How'd you breathe life in this heart of soul

[Hook]

It's like I can feel, it's like I can breathe
It's like I can live, it's like I can love
For the first time, for the first time
For the first time, for the first time

[Bridge]

I'm electric, finally exposed
You see through me, strip off all my clothes
If this is falling, then let me go, oh

[Hook]

It's like I can feel, it's like I can breathe
It's like I can live, it's like I can love
For the first time, for the first time
For the first time, for the first time

[Verse 2]

I'm finally awake and I can feel my heart
It's beating like a drum when I'm right here where you are
I can feel it, I can feel it, oh
Can you feel it

[Hook]

It's like I can feel, it's like I can breathe
It's like I can live, it's like I can love
For the first time, for the first time
For the first time, for the first time
It's like I can feel, it's like I can breathe

It's like I can live, it's like I can love
For the first time, for the first time
For the first time, for the first time
