

Human Touch

Kem

Every finger was made
For your delight
To follow the curve of your face
Here next to mine All of your secrets are safe with me
Can I taste your perfume?
Or I could just linger
Here for days and melt with you We can't lose with love on our side
And I could use your affection tonight
Love was made just for us
Human touch, human touch, hey, girl Watching the wind blow your hair
Don't you wanna spoon
In a garden of pillows we can share
Take off your shoes
Girl, you're my favorite time of the year
Can I kiss your toes?
Until this fever disappears
Mummy, you run the show Oh, just stay here with me
Your love is all I need
I just want it so much
Human touch Hey, girl, human touch, girl Oh, just stay here with me
Your love is all that I need
I just want it so much
Human touch Hey girl, come on over
Human touch, baby, yeah
Can you help me out, girl?
Human touch, yeah, baby
I need your love tonight, girl
Human touch, yeah, hey, girl
Human touch, girl, yeah
I need you to touch me all over, human touch Come on over and touch me, baby
Can I kiss your toes, girl?
Can you help me out, baby
I need you to touch me all over Hey, girl, take off your shoes
Gonna be some loving
Going down up in here tonight, baby
Human touch
