

# Online

## Domo Genesis

Young niggas stay way misunderstand  
No I can't change my way, feel good bruh  
Niggas don't make it from my hood  
That's why I'm getting high  
And no I can't let a day go by  
Know a nigga on it rain or shine  
I heard you niggas stay online It feel like a crime  
Young niggas stay way misunderstood  
No I can't change my way, feel good bruh  
Niggas don't make it from my hood  
That's why I'm getting high  
No I can't let a day go by  
Know a nigga on it rain or shine  
I heard you niggas stay online  
Cause I'm coming alive  
Riding through the city on some dirty shit  
Reserve perfectly, swift as a surgeon  
No murder I'm flirting with, I'm nerveless  
I got a different purpose  
You just inching the surface  
You just a gimmick purchase  
Bitch, I'm still that nig in person  
I'm double working over friends  
'Cause most these niggas serpents  
Who really with me in this skirmish, man this shit a circus  
I'm really trying to flourish but I'm in this burning furnace  
And I heard it never wait for turns and I'm just being earnest  
You niggas don't deserve this  
I take everything you believe and leave that shit deserted  
You just falling in with the stream, I'm in a different current  
Check how I swerve in this mix, it's still existent  
I know how urgent it gets, cut all the silly shit  
Came in the building to break these millies with my affiliates  
We on the high line, you picturing from the sidelines  
Crossing these pylons  
I'm bout the commas, fuck the dot com, nigga  
It feel like a crime  
Young niggas stay way misunderstood  
No I can't change my way, feel good bruh  
Niggas don't make it from my hood  
That's why I'm getting high  
And no I can't let a day go by

Know a nigga on it rain or shine  
I heard you niggas stay online  
Cause I'm coming alive I been catching real vibes, what do you believe?  
I been up here working, I been smoking weed  
Half a dozen tricks that I got up my sleeve  
I don't see too many ways that I can't succeed  
Getting high enough to bring a cloud down  
I done had this pope vision for a while now  
I inspire so many niggas should bow down  
I freestyle and every event to me is wild style  
I can turn my burdens to a love song  
In the mist of the trouble feel like it's nothing wrong  
I can see right through it when it's done wrong  
And I can end it all like Thanos with the glove on  
I believe in karma, what do you believe?  
I believe my timing now is true indeed  
I feel like I lived this, this ain't new for me  
And I be coming for everything that was [?] for me, for real It feel like a crime  
Young niggas stay way misunderstand  
No I can't change my way, feel good bruh  
Niggas don't make it from my hood  
That's why I'm getting high  
And no I can't let a day go by  
Know a nigga on it rain or shine  
I heard you niggas stay online  
Cause I'm coming alive Bitch  
I'm coming alive  
Stay yo ass online  
Cause you don't really want it in real life  
You don't know what it feel like  
Yeah, shit feel right  
Don't come outside  
You better stay your ass online  
Don't come outside  
Na-na-na-na  
Cause I'm coming for mine, coming alive  
Niggas stay online
