

# Surgery

## Shiner

Surgery in the road,  
coming apart and slips through the holes.  
Forgery, it's a show,  
covers her eyes and peaks through the holes.  
Mediate rodeo,  
slides to the front and lets it take hold.  
Medicate exit polls,  
covers her eyes and peaks through the holes.

It's the thrill of the wound.

All the children gathered 'round  
to pull the cars apart and see what falls out.  
All the children gathered 'round  
to drag the bodies through the town and turn their frowns  
upside down.

Surgery for the show,  
covers her eyes and peaks through the holes.  
Captivate then reload,  
waving her arms to add to the show. Masturbate, it's a  
show!  
It's the thrill of the wound.

All the children gathered 'round  
to pull the cars apart and see what comes out.  
All the children gathered 'round  
to drag the bodies through the town and turn their frowns  
upside down.
